NOTE FOR SUPERVISORS

The optician is responsible and accountable for the opticianry services provided by the student member working under supervision. Assess the knowledge and skills of the student member and assign only those tasks and activities that fall within their competence.

Employ supervision strategies to determine which patients are suitable to receive services from a student licence member and take into account the competence of the student licence member, the patient care needs, and other factors related to the practice environment.

Supervisor provide direct supervision to the student; directly observing and analyzing the student's performance during their accredited optical training program.

Student members have not yet passed the accredited program or the NACOR exam, and as a result they cannot work alone in the field. Until they can demonstrate through the NACOR exam that they are qualified for Registration, a supervisor must watch and guide them through each part of the job.
